

PEOPLE'S DEMOCRATIC REPUBLIC OF ALGERIA
 MINISTRY OF PUBLIC WORKS

CONCEPT NOTE

of the
**18th Edition of the International
 Exhibition of Public Works - SITP -**

From 28 June to 02 July 2022

The International Exhibition of Public Works "SITP"

Organizes once a year. Since its creation in 2003, it has become one of the most important trade fairs for the Public Works sector; it is an unmissable economic event bringing together national and international professionals and industrialists in the Public Works sector and its related activities.

Over the years, this exhibition has seen the participation of more than 400 exhibitors, between national and international from the countries, Germany, France, Italy, Turkey, China, Belgium, India, Portugal, Spain, Denmark, the UAE, Switzerland, South Korea, Tunisia, Egypt, Poland, Japan and Indonesia, mobilizing for this purpose all the pavilions of the exhibition center (SAFEX), for an area of more than 26,000 m² and nearly one (01) million visitors.

The **ISTP** has become one of the main crossroads of exchanges between manufacturers, distributors, national and international subcontractors, in search of new markets, new products and services, it is a meeting place crowned with enormous potential for the creation of lasting commercial relations especially for companies wishing to position themselves on promising markets in Africa and the Maghreb.

It is with conviction and determination that the sector hopes to make this precious meeting a fruitful partnership framework, mutually beneficial and based on the win-win principle, by associating, in a new vision of intersectorality, the sectors related to the activity of public works.

This year, the International Exhibition of Public Works will be held from June 28 to July 02, 2022, **under the high patronage of the Prime Minister**. This edition is registered as part of the celebration of the 60th anniversary of the National Independence Day, under the theme: **"PUBLIC WORKS: 60 YEARS OF ACHIEVEMENTS"**.

In addition to the fundamental objectives assigned to this show, a special stand will be dedicated to the event by presenting the great achievements of the sector during the period from 1962 to date. An opportunity to pay tribute and honor the women and men who have contributed to the development of the sector.

This internationally renowned event will focus on the following axes:

- The development of the national tool for studies and realization and its export potential,
- Collaboration and exchanges with international design offices in engineering and technology transfer,
- Exhibition and presentation by international suppliers of the latest generations of construction equipment dedicated to public works.
- The promotion of new prefabrication techniques for the various structures.
- The development of quality control techniques and tools, the valorization of innovations in the field of public works,
